

Eugene Builders Exchange

Scholarship Application

About Us

The Eugene Builders Exchange (EBE) is a membership driven organization that works hand in hand with many in the construction industry. Our membership consists of general contractors, subcontractors, suppliers, manufacturers, and many others. Our connections go deep. We have relationships with architects, engineers, builders, investors, State, County, City, school districts and much more. For over 70 years we have kept the construction pipeline open for our members to view and submit competitive bids. Available projects that come through our exchange each year are valued in the billions of dollars.

We also offer added benefits to our members that give them an edge over their competition. We have a full-service print, copy, and scan center that delivers state-of-the-art professional copies and digital scans, in both either full color and black/white. Our services are second to none and we take pride in both the services we provide and the job we do. We are constantly striving to excel and continue to bring our organization to the next level. Whether it be through technology or construction opportunities, we strive to be the best there is.

In an effort to help keep the trades alive, EBE likes to give back. One way of doing so is giving out scholarships to those entering the trades. EBE intends to award five (5) \$1,000 scholarships to students attending some form of trade school, whether they be new enrollments, or continuing their education.

Our goal is to continue supporting the industry we have been a part of for the last 70 years by helping students become an asset to our members via their education.

Eligibility

- This application is for:
 - Students entering an apprenticeship or trade program at any participating college or trade school in the State of Oregon.
 - Students currently enrolled in an apprenticeship or trade program at any participating college or trade school in the State of Oregon.
- Participating institutions may be universities, community colleges or trade schools with a verifiable degree and/or certification program for a trade.
- Scholarships will apply to the term immediately following the date of award.
- Money will be paid out to the selected student upon confirmation of enrollment in program and school.
